

Proof of Aliens on Earth

I am publishing these photos I took very recently which **prove** aliens from outer space are present on Earth. I will add more documentation very soon to back up these amazing images. I will not disclose the exact location to protect any exogenous life.

Image 1 shows a UFO flying saucer (circled) hovering over an undisclosed location in the South West of the U.S.

Image 1

After watching the UFO for several minutes performing maneuvers, I saw it land in the distance! Several hours of stealthy movements by foot were required in the unforgiving hot and dry desert to approach the landing site without being noticed. But it was worth it. I captured on film an alien from outer space! Surely a Pulitzer Prize winning photo.
